

K-Love is one of the stations that is family friendly. I have no qualms about leaving the station on with my young kids around. This station has a very positive message for families and our community. The effect of this community if K-Love were to be replaced by a LPFM broadcaster would be very sad. There are so many negative influences in our society already. We need this positive message to continue. The message helps people to be more forgiving of one another. To help others in need. I hope that you will reconsider NOT allowing the LPFM broadcaster option to continue.

Thank you.
